Union City, California

## PROJECT

### Task Management App

- Built a functional to-do list app using JavaScript to manage tasks and practice state management.
- Integrated features such as task addition, deletion, and local storage to persist user data.
- Designed the UI to be minimalist and user-friendly, ensuring a seamless user experience.

### Pong Game

- Developed a simple, interactive Pong game using HTML, CSS, and JavaScript to practice implementing animation, and game logic through hands-on development.
- Implemented collision detection, scoring system, and keyboard controls for smooth gameplay.
- Focused on refining gameplay mechanics and optimizing the performance to ensure responsive user interactions.

### Restaurant Reservation Website

- Developed a responsive restaurant reservation system using HTML, CSS, and JavaScript.
- Built interactive features for reservation booking and menu browsing using React components.

## EDUCATION

Bachelor of Arts in Communication | Minor in Psychology

University of California San Diego, CA, June 2021

## EXPERIENCE

### Associate Banker

East West Bank, Fremont, CA | October 2022 - February 2023

- Provided personalized banking services, using effective communication and problem-solving to enhance customer satisfaction.

### Substitute Teacher's Aide

ChildCare Careers, East Bay, CA | November 2021 - October 2022

- Facilitated educational activities for large groups, demonstrating adaptability and strong interpersonal skills.
